COMMUNITY HEALTH OPTIONS INTRODUCES RX SAVINGS SOLUTIONS TO FUEL MEMBER SAVINGS

Lewiston, ME – Community Health Options announced today a new partnership with Rx Savings Solutions to provide a cost-effective answer to increasing prescription drug expenses and save its Members money.

As the cost of healthcare continues to rise, people are looking for ways they can save money. Rx Savings Solutions has an exclusive platform that analyzes thousands of clinical recommendations to find the most affordable options for people. Health Options Members will be alerted via email or text message when a cost-savings opportunity exists. They log in to a user-friendly website to review a custom report of cost-savings options. In some instances it will be as easy as identifying better pricing at their local pharmacy.

“Rx Savings Solutions looks at claims, it looks at therapeutic alternatives, and it compares prices at different pharmacies,” says Kevin Lewis, chief executive officer at Community Health Options. “Our Members will now have additional tools to help them reduce their out-of-pocket costs for prescription medications. It’s the most comprehensive solution that I’ve seen when it comes to driving safe, easy and personalized prescription savings suggestions.”

Rx Savings Solutions' system is completely HIPAA security compliant. All interaction between the software platform and the Member is confidential. Rx Savings Solutions is without bias and delivers the most accurate, cost-effective data to health insureds based solely on the location and medication needs of each person.
