

Smart tiering, stronger coverage:

Community Health Options HMO Tiered NE plans

Our tiered network expands value so Members can save more without sacrificing choice.

With Community Health Option's tiered HMO New England plans, Members get access to our full network. This includes **Maine, New Hampshire, and most Centers of Excellence in Massachusetts**. Our preferred tier providers are high-quality and cost-efficient, offering Members plenty of choice as well as savings on copays and coinsurance.

Inpatient and Emergency Care

We offer **preferred** access to every hospital in Maine for **inpatient and emergency care**, and there are even preferred hospitals outside of Maine.

Office-based and Outpatient Care

We determine preferred or standard status by drilling down into specialties and outpatient hospital services, evaluating quality and value. Office-based and outpatient hospital services may be preferred or standard, depending on the specialty, health system, and location. As a note, all our network **outpatient behavioral health** specialists are **preferred** regardless of location.

Use the [provider directory](#) to see **preferred \$** or **standard \$\$** locations.

Smart tiering, more choice, more savings, stronger coverage

Other preferred inpatient hospitals outside of Maine
