

Refer to Community Health Options **Formulary Overview** located at www.healthoptions.org as a guide how to use this formulary.

List of Abbreviations

ACA: Affordable Care Act. Preventive medications are covered at no cost when ACA conditions are met.

CISP: This designation is only applicable for plans that include the Chronic Illness Support Program (CISP) benefit. The Chronic Illness Support Program provides enhanced coverage for specific medications used to treat the following chronic illnesses: Asthma, Coronary Artery Disease (CAD), Chronic Obstructive Pulmonary Disease/Emphysema (COPD), Diabetes, and Hypertension (High Blood Pressure). Enhanced coverage is limited to \$0 cost-share for Tier 1 medications, and reduced cost shares on select Tier 2 and Tier 3 medications according to your plan design without having to meet deductibles first. For non-CISP eligible plans, please refer to the numeric listing in the Drug Tier column. **Reduced cost share is only available through Home Delivery.**

CISP-1: This designation is only applicable for plans that include the **Chronic Illness Support Program** (CISP) benefit. The CISP-1 designation indicates the cost-share for the medication/item is \$0. For non-CISP eligible plans, please refer to the numeric listing in the Drug Tier column. **Reduced cost share is only available through Home Delivery**

HSA: Health Savings Account. Reduced cost share applies to select drugs for employer-sponsored group plans. Please refer to your Schedule of Benefits for details.

MSP: Mandatory Specialty Pharmacy. When you “MSP” this means the out-of-pocket cost is at the ‘specialty’ cost share and the Mandatory Specialty Pharmacy rule applies. The Mandatory Specialty Pharmacy rule means this drug must be obtained directly through our exclusive mandatory pharmacy Accredo (mail order) or the drug is not covered. We may require that you try certain drugs to treat your medical condition before you are provided coverage.

OTC: Over-the-Counter. This drug is an over-the-counter product that is covered with a prescription from the prescriber.

PA: Prior Approval. The Plan requires you or your Provider to get Prior Approval for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don’t get approval, we may not cover the drug. We may require that you try certain drugs to treat your medical condition before you are provided coverage.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover over a period of time. **Opioid (narcotic) limits are based on Maine regulations.**

SP: Specialty Drug. When you see “SP” this means the out of pocket cost is at the ‘specialty’ cost share. The Plan offers one courtesy fill at a retail pharmacy as a covered benefit. Then this drug must be obtained directly through the exclusive specialty pharmacy Accredo or you pay 100% of the retail cost. We may require that you try certain drugs to treat your medical condition before you are provided coverage.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If you try Drug A and it does not work for you, we may then cover Drug B.

Effective December 1, 2018

If you need assistance or have questions, please call Member Services at (855) 624-646
