

Purpose

Community Health Options reimburses clinically appropriate telehealth services occurring between the patient and remote provider. Reimbursement is subject to regular claim editing policies, Member benefits or certificate of coverage, eligibility, prior authorization requirements, and the Maine Legislature.

Definitions

Mobile health device: a wearable device used to track health and wellness, including, but not limited to, a heart rate and respiratory monitor, an electrocardiogram monitor, and a glucose monitor.

Store and forward transfers: transmission of an enrollee's recorded health history through a secure electronic system to a provider.

Synchronous encounters: real-time interaction conducted with interactive audio or video connection between an enrollee and the enrollee's provider or between providers regarding the enrollee.

Telehealth: the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers, and telemonitoring.

Telemonitoring: the use of information technology to remotely monitor an enrollee's health status via electronic means, allowing the provider to track the enrollee's health data over time. Telemonitoring may be synchronous or asynchronous.

Policy

Telemedicine and telehealth are used interchangeably within this policy to define healthcare services provided to the patient by a qualified healthcare professional, both at different locations while using information technology.

Telemedicine services are considered "covered services" when all the following criteria are met:

- Service is medically appropriate and necessary.
- The healthcare provider performing and billing the services is eligible to independently perform and bill the same service face-to-face. Telehealth is used as a substitute for face-to-face services at the same location within Community Health Options scope of coverage,
- The information technology system complies with standards required under the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA).
- Claim reports the place of service (POS):
 - "02" Telehealth Provider Other than in Patient's Home or;
 - "10" Telehealth Provided in Patient's Home
- Claim includes appropriate telehealth Current Procedure Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) code(s). Approved codes are listed on the CMS website at <https://www.cms.gov/medicare/coverage/telehealth/list-services>.
- Claim includes modifiers for the services performed, as appropriate:
 - 93: synchronous telemedicine service rendered via telephone or other real-time interactive audio-only telecommunications system
 - 95: synchronous telemedicine service rendered via a real-time interactive audio and video telecommunication system

- FQ: The service was provided using audio-only communication technology
- GO: telehealth services for diagnosis, evaluation, or treatment, of symptoms of acute stroke
- GQ: via asynchronous telecommunications system
- GT: via interactive audio and video telecommunications system

Effective for services on and after Oct. 1, 2023, covered medical telehealth/telemedicine services will be reimbursed at 80% of the fee schedule allowable amount. This does not apply to behavioral health providers.

Members' cost sharing for telehealth services will be applied consistently with coverage for healthcare services provided face-to-face.

Non-Covered Services

Billed codes not on the CMS website for telehealth-approved codes will not be eligible for reimbursement:

<https://www.cms.gov/Medicare/Medicare-GeneralInformation/Telehealth/Telehealth-Codes>

Q3014 - Site Facility Fee is not a payable service.

Non-covered services are not to be balance billed to the Member.

Document Publication History

- 6/21/2023 Reimbursement as of 10/1/23 at 80% fee schedule allowable, excluding behavioral health providers.
- 6/8/2022 Emergency State Legislature updates. Added definitions, POS and modifiers. Removed distant site and Public Health Emergency exceptions.
- 4/27/2021 Annual review; no changes
- 3/17/2020 Initial publication

This policy provides information on Community Health Options' claims adjudication processing guidelines. As every claim is unique, the use of this policy is neither a guarantee of payment nor a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to Member eligibility and benefits on the date of service, coordination of benefits, referral/authorization and utilization management guidelines when applicable, adherence to plan policies and procedures, and claims editing logic. Community Health Options reserves the right to amend a payment policy at its discretion. Policies are enforced unless the underpinning direction stated otherwise.
